

## BOW MAKER BASIC INSTRUCTIONS

1. Select the appropriate dowels for the size of bow you require and place them in the holes.
2. Place your ribbon round the back of the dowels. Then take the left-hand ribbon towards the right-hand dowel.
3. Take the right-hand ribbon over the left-hand ribbon and under A and B.
4. Take it to the back of the bow maker.
5. Now bring the ribbon over the top and to the front.
6. Make a loop by bringing the left-hand ribbon towards the left side of the bow maker.
7. Taking the right-hand ribbon go over, under and through the left-hand ribbon so it ends up on the right side.
8. Pull the ends and make your bow.
9. Take it off the dowels and adjust as required.
